PROFILE

Passionate Web Developer and BSc Computer Software Engineering student at UET Mardan, skilled in React, Next.js, and the MERN stack. Experienced in building dynamic, responsive web applications with authentication, database management, and API integrations. Looking for an internship or entry-level role to contribute my skills and gain industry experience.

WORK EXPERIENCE & PROJECTS

Freelance Web Developer (Self-Employed) JAN 2024- PRESENT
Full Stack Web Developer

- Developed custom web solutions for clients using React, Next.js, and MERN stack.
- Built responsive and optimized websites with a focus on UI/UX and security.
- Delivered two client projects:
 - Anabeya Collection** - Full-stack e-commerce web app with an admin panel for product and order management.
 - Mr. Khan Solar System** - Static portfolio website for a solar business, ensuring a responsive and SEO-friendly design.

Personal & Academic Projects JAN 2024-PRESENT

- Ali's Devs Journal** - Full-stack blog website with authentication, commenting, and admin panel.
- CSS Maker** - React-based CSS generator with real-time previews and copyable code.
- Virtual Chemistry Lab** - A web-based application enabling students to conduct virtual chemistry experiments, enhancing accessibility and learning efficiency.
- 3D Interactive Portfolio** - Animated React Three Fiber portfolio with GSAP scrolling effects.
